## Restriction of the use of certain hazardous Substances (RoHS)

Dear ladies and gentlemen,

on 9th May 2013 the legislative body has put a regulation into place which restricts the use of certain hazardous substances in electrical and electronic equipment (RoHS).

With this regulation the European guideline 2011/65/EU is transferred into the national law.

According to this regulation electrical and electronic equipment can be sold into the European Union only when the chemical substances mentioned in Annex II are contained only in a limited concentration.

Herewith we confirm that the products of the company MICROSENS do not contain more than 0.1 % by weight of

- Lead
- Mercury
- Hexavalent chromium
- Polybrominated biphenyls (PBB)
- Polybrominated diphenyl ethers (PBDE)
- Bis(2-ethylhexyl) phthalate (DEHP)
- Butyl benzyl phthalate (BBP)
- Dibutyl phthalate (DBP)
- Diisobutyl phthalate (DIBP)

and not more than 0.01 % by weight of

- Cadmium

in homogenous material.

Therefore all products of the company MICROSENS are fully compliant to the RoHS regulation and the EU guideline 2011/65/EU for the restriction of the use of certain hazardous substances in electrical and electronic equipment, including the changes 2015/863/EU und 2017/2102/EU.

As the RoHS directive was transposed into national laws, a special marking as 'RoHS compliant' is not required. The compliance with Directive 2011/65/EG is confirmed in the CE declaration of conformity.

Best Regards

MICROSENS GmbH & Co. KG
